

# Why choose BEGHELLI?

## Lighting Layouts

From simple to complex – our experts will provide accurate, efficient, and cost effective lighting layouts for your applications.

## Emergency Layouts

Our team of professionals know the building code requirements for emergency lighting inside and out – therefore we can confidently provide AGI emergency lighting layouts and takeoffs for any application.

## Light Level Verification

We will give a comprehensive audit of the emergency lighting fixtures using our own testing equipment and will provide all the necessary reports to make sure your installation is meeting all code requirements.

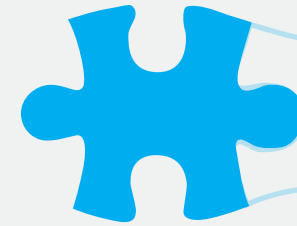

## On-site Service

Our Beghelli trained technicians and regional service depots can provide quality on-site support for technical issues, replacements and repairs.

## Project Staging

Whether your lighting project is big or small – we will keep your Beghelli product in our warehouse until you are ready to install. Your fixtures will be protected, organized and ready to go when you need them.

## Canadian Manufacturing

For 19 years, Beghelli has been committed to Canadian manufacturing and investing in Canadians. We design, build and customize our products out of Markham, Ontario. Since we are local – you are guaranteed to get your fixtures quickly.
